Steps to Prepare Your COVID-19 Preparedness and Response Plan

STEP 1: Review Executive Order 2020-42 and any relevant subsequent or local-level orders.

- Governor Whitmer’s Executive Order 2020-42 prohibits in-person work that is not necessary to sustain or protect life. It contains various restrictions that must be followed. In general, no person or entity may operate a business or conduct operations that requires workers to leave their homes except to the extent those workers are necessary to sustain or protect life (*i.e.*, critical infrastructure workers) or to conduct minimum basic operations. In addition, all in-person government activities that are not necessary to sustain or protect life, or to support those businesses and operations that are necessary to sustain or protect life, are suspended.
- Many counties and local governments are issuing their own executive orders or public health orders that contain additional restrictions or requirements. Be sure to check for any local requirements beyond the state-level orders to ensure compliance.¹
- Executive Order 2020-42 is in effect until April 30, 2020. Update your Preparedness and Response Plan (“Plan”) as your operation evolves or as state/local orders related to COVID-19 are issued or amended. Subsequent Executive Order 2020-59 has modified requirements for in-person work and has provided that additional resumed activities may allow in-person workers to return to work. Executive Order 2020-59 is in effect until May 15, 2020.

STEP 2: Restrict the workers permitted to perform in-person work to no more than is necessary to perform the business’s or operation’s critical infrastructure functions or to conduct minimum basic operations.

- Determine which employees are “critical infrastructure workers” or those required to conduct minimum basic operations, allow as many employees to work remotely as feasible, and temporarily suspend any in-person operations if not necessary to sustain or protect life.
- Inform those employees you identified as “critical infrastructure workers” or necessary to conduct “minimum basic operations” in writing as required.
- Discontinue non-essential travel.

STEP 3: For those critical infrastructure workers who must perform in-person work, identify how each different job classification at each worksite might be exposed to COVID-19.

- Following OSHA Standards for classifying workers exposure, classify workers as low risk, medium risk, high risk, and very high risk.
- Assess each position’s interaction with the general public, customers, and coworkers.
- Assess each position’s level of interaction with sick individuals.
- Acknowledge non-occupational risk factors in employees’ homes and community settings.
- Give consideration to personal risk factors that further increase workers’ risk of developing more serious complications from COVID-19 (*e.g.*, older age; presence of chronic medical conditions, including asthma and immunocompromising conditions; pregnancy).

¹ The steps included in this document are focused on the state-level requirements currently in place under Executive Order 2020-42. As you develop your Plan, you will need to separately consider any applicable subsequent executive orders or local (county, city, village, or township) requirements. We recommend that you consult with counsel as you tailor your plan.

STEP 4: Implement controls and policies necessary to address those risks.

- Restrict the number of workers present on the premises to only those strictly necessary to perform the business's or operation's critical infrastructure functions or to maintain minimum basic operations.
- Promote remote work to fullest extent possible.
- Promote regular hygiene and cleaning. Provide access to places to frequently wash hands, or to access hand sanitizer, and provide access to tissues and places to properly dispose of them.
 - Instruct employees on proper hand washing methods, to cover their coughs and sneezes with tissue, and to avoid touching their faces.
 - Post signs in restrooms regarding proper hand washing methods.
- Increase cleaning and disinfecting of surfaces, equipment, and other elements of the work environment using cleaning chemicals with EPA-approved disinfectant labels with claims against emerging viral pathogens (list of such products available at <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>).
- Where possible, avoid shared use of offices, telephones, desks, and tools/equipment.
- Provide disposable disinfectant wipes so that any commonly used surfaces can be wiped down by employees before each use.
- Implement screening procedures before permitting employees to enter the workplace, with employee(s) wearing personal protective equipment (PPE) in charge of screening.
 - Take employees' temperatures (or, if your jurisdiction allows, ask employee if they have a fever), and require employees to confirm whether they are experiencing any of the principal COVID-19 symptoms (fever, atypical cough, or atypical shortness of breath), and whether they have been exposed to anyone with COVID-19. Adopt a policy to prevent workers from entering the premises if they display respiratory symptoms or have had contact with a person with a confirmed diagnosis of COVID-19.
 - If an employee has or develops temperature of 100.0 degrees Fahrenheit or above, or exhibits symptoms, immediately separate him/her from other employees, customers, and visitors and send home.
 - Use Employee Screening Questionnaire (one example is included in Appendix B, but many local jurisdictions have adopted their own questionnaire that should be followed).
- Put signs on doors limiting visitors; consider requiring appointments for certain services.
 - Example sign for building entrances included in Appendix D.
- If an employee is confirmed to have COVID-19, employers should inform fellow employees of their possible exposure to COVID-19 in the workplace (but maintain confidentiality as required by the Americans with Disabilities Act ("ADA") and the Health Insurance Portability and Accountability Act of 1996 ("HIPAA")), and instruct fellow employees about how to proceed based on the Center for Disease Control and Prevention ("CDC") [Public Health Recommendations for Community-Related Exposure](#).
 - Adopt protocol to clean and disinfect facilities after confirmed case in the workplace.
- Encourage workers to stay home if they are sick, or if their household members are sick.
- Establish social distancing policies to increase the physical distance between employees and those they interact with so that, to the maximum extent possible, employees do not regularly come within six feet of other individuals at work.
 - This may include telecommuting, staggered shifts, decreasing number of employees to report for in-person work, decreasing face-to-face interactions, and limiting number of non-employees who are able to enter facilities.
 - For those positions where face-to-face interaction is necessary, consider installing physical barriers, such as clear plastic sneeze guards, or developing a drive-through window for services.

STEP 4: Implement controls and policies necessary to address those risks. (continued)

- Monitor and adopt any other social distancing practices and mitigation measures recommended by the CDC.
- Establish social distancing policies to keep workers and patrons who are on the premises at least six feet from one another to the maximum extent possible.
- Provide PPE—including gloves, goggles, face shields, face masks, and respiratory protection—to employees as required, and train workers who need to use PPE how to put it on, use/wear it, and take it off correctly. Businesses in Michigan are directed to provide non-medical grade face coverings for employees to help preserve N95 masks and surgical masks for health care professionals and first responders.
- Consider improving the building ventilation system by increasing ventilation rates and/or increasing the percentage of outdoor air that circulates into the system.
- Adopt relevant and appropriate controls recommended by the Occupational Safety and Health Administration (OSHA).
- If staff are required to pick up supplies for operations, ensure that they are only traveling to the supply location with one employee per vehicle and practice social distancing while picking up supplies and completing the transaction. Ensure that employees are equipped with appropriate PPE while picking up and then delivering supplies to your facilities/operation locations.

STEP 5: Put business continuity plan in place.

- Identify a workplace coordinator or coordinators who will be responsible for COVID-19 issues in the workplace, or within each department or office.
- Identify those critical functions that must continue while Governor Whitmer’s “Stay Home, Stay Safe” Order remains in effect.
- Identify alternate supply chains for critical goods and services.
- Develop emergency communication plan.
- Determine how you will operate to perform critical functions if absenteeism spikes from increases in sick employees, and those who stay home to care for sick family members and children without care.
- Cross-train employees to perform essential functions so the workplace can operate even if key employees are absent. Implement plan for how role of each essential employee will be filled if absent.
- Do not allow employees who experienced symptoms to return to work until either: (1) they receive a negative COVID-19 test; or (2) both 3 days have passed since their symptoms have resolved, and 7 days have passed since their symptoms first appeared or since they were swabbed for the test that yielded the positive result.
- Do not allow employees who have been in “close contact” (being within approximately six feet for a prolonged period of time) with an individual who tests positive for COVID-19 and who display one or more of the principal symptoms of COVID-19 to return to work until either: (1) 14 days have passed since the last close contact with the sick or symptomatic individual; or (2) the symptomatic individual receives a negative COVID-19 test.

STEP 6: Obtain necessary required Board/Governing Body approval for your COVID-19 Preparedness and Response Plan.

Chippewa County COVID-19 Preparedness and Response Plan²

Date Implemented: May 14, 2020

Date revised (Executive Order 2020-59): _____

² This model plan will need to be updated to address the specific aspects of your operations as well as any local (city, village, township, or county) requirements for your location. Under Executive Order 2020-42 and Executive Order 2020-59, a copy of your Plan must be available at your headquarters or worksite.

Model COVID-19 Preparedness and Response Plan³

In order to respond to the current state of emergency related to the novel coronavirus (“COVID-19”) and to comply with relevant state and local orders related to COVID-19, Chippewa County have prepared the following COVID-19 Preparedness and Response Plan (“Plan”). This Plan may be updated as this situation evolves or as state or local orders related to COVID-19 are issued or amended.

Essential Workers Necessary to Perform Critical Infrastructure Functions or Conduct Minimum Basic Operations

Executive Order 2020-42 and subsequent Executive Order 2020-59 prohibits businesses or operations to operate a business or conduct operations that requires workers to leave their homes except to the extent those workers are necessary to sustain or protect life (*i.e.*, critical infrastructure workers) or to conduct minimum basic operations. Appendix A contains a list of critical infrastructure workers as described by the U.S. Cybersecurity and Infrastructure Security Agency in its March 19, 2020 guidance as well as additional categories of such workers identified by Governor Whitmer in Executive Orders 2020-42 and 2020-59.

Under Executive Orders 2020-42 and 2020-59, workers who are necessary to conduct minimum basic operations are “those workers whose in-person presence is strictly necessary to allow the business or operation to maintain the value of inventory and equipment, care for animals, ensure security, process transactions (including payroll and employee benefits), or facilitate the ability of other workers to work remotely.”

Only “critical infrastructure workers” or those required to conduct minimum basic operations may be permitted to perform in-person activities so long as any in-person work is performed consistently with the social distancing and mitigation measures required under any relevant executive order or public health order. Workers designated as critical infrastructure workers or those required to conduct minimum basic operations will be informed of such designations in writing, if so required.

Protective Safety Measures

Sick Leave

Employees are permitted to take paid leave consistent with the Families First Coronavirus Response Act and Chippewa County’s labor agreements and County handbook. Any onsite employee who appears to have a respiratory illness may be separated from other employees and sent home.

Remote Work

All employees who are not essential to operations, and whose job duties reasonably allow to them telework, will work remotely.

Employee Screening Before Entering the Workplace

A sample Employee Entry Screening Questionnaire is attached as Appendix B. A screening questionnaire should be completed by all employees before being permitted to enter the workplace and should comply with any required screening process required by the state or local jurisdiction in which the business is located. Any individual taking employee temperatures will be required to wear appropriate personal protective equipment. If an employee fails the screening process, he or she will be prevented from entering

³ This model plan will need to be updated to address the specific aspects of your operations as well as any local (city, village, township, or county) requirements for your location. Under Executive Order 2020-42 and Executive Order 2020-59, a copy of your Plan must be available at your headquarters or worksite.

the premises until allowed to return to work under the relevant executive orders or public health orders, which requirements are explained in detail in the Return to Work Plan, attached as Appendix C.

Personal Protective Equipment

Chippewa County shall provide and make available to all Critical Infrastructure Workers (CIW) and any worker performing in-person work, personal protective equipment (PPE) such as gloves, goggles, face shields, and face masks as appropriate for the activity being performed by the CIW. Any in-person worker able to medically tolerate a face covering, must wear a covering over his or her nose and mouth when in any enclosed public space.

Enhanced Social Distancing

Supervisors will direct employees to perform their work in such a way so as to reasonably avoid coming within six feet of other individuals. Where possible, employees may be relocated or provided additional resources in order to avoid shared use of offices, desks, telephones, and tools/equipment. The number of employees permitted in any break room or lunch room shall be limited to ensure social distancing restrictions can be followed. Employees should remain in their assigned work areas as much as possible. Employees will be provided with appropriate personal protective equipment as required and physical barriers may be installed for employees commensurate with their level of risk of exposure to COVID-19 and as appropriate.

Enhanced Hygiene

Employees are instructed to wash their hands frequently, to cover their coughs and sneezes with tissue, and to avoid touching their faces. Employees will be provided with access to places to frequently wash hands or to access hand sanitizer. Employees will also be provided with access to tissues and to places to properly dispose of them. Signs regarding proper hand washing methods will be posted in all restrooms. Hand shaking is also prohibited to ensure good hand hygiene.

Enhanced Cleaning and Disinfecting

Increased cleaning and disinfecting of surfaces, equipment, and other elements of the work environment will be performed regularly (at least every other hour) using products containing EPA-approved disinfectants. Employees will be provided with access to disposable disinfectant wipes so that any commonly used surfaces can be wiped down before each use. In the event that an employee that has been in the workplace in the past 14 days tests positive for COVID-19, the effected area will be sanitized immediately.

Tools and Equipment

Chippewa County limits the sharing of tools and equipment among in-person employees. Should any sharing of tools be required, employees must disinfect and clean each tool or piece of equipment following their use of same and before any other employee uses the tool or piece of equipment. Chippewa County will provide employees with disinfectant wipes and other disinfecting products for this purpose.

Visitors

No visitors should be allowed in the workplace unless they are deemed essential to address an issue related to critical infrastructure functions. All visitors entering the building shall be screened prior to entering the building. A screening questionnaire should be utilized to decide if the visitor can enter the building. If a visitor presents with symptoms of COVID-19 or answers yes to any of the screening questions do not allow them into the building. Provide visitor handout regarding what to do if you might have COVID-19.

Chippewa County requires that any member of the public able to medically tolerate a face covering must wear a covering over his or her nose and mouth, such as a homemade mask, scarf, bandana or handkerchief, while in any enclosed public space.

Employees with Suspected or Confirmed COVID-19 Cases

Suspected Cases

An employee will be considered to have a Suspected Case of COVID-19 if:

- They are experiencing any of the following COVID-19 symptoms:
 - Fever;
 - Shortness of breath; and/or
 - Continuous cough.OR
- They are experiencing at least two of the following symptoms:
 - Fever
 - Chills
 - Repeated shaking with chills
 - Muscle pain
 - Headache
 - Sore throat and/or
 - New loss of taste or smell
- They have been exposed to a COVID-19 positive person, meaning:
 - An immediate family member has tested positive for or exhibited symptoms of COVID-19; or
 - In the last 14 days, the employee came in close contact with someone who has tested positive for COVID-19.

If an employee believes that he or she qualifies as a Suspected Case (as described above), he or she must:

- Immediately notify supervisor and/or Human Resources contact;
- Self-quarantine for 14 days; and
- Seek immediate medical care or advice.

If an employee qualifies as a Suspected Case, then Chippewa County will:

- Notify all employees who may have come into close contact (being within approximately six feet for a prolonged period of time without PPE) with the employee in the past 14 days (while not disclosing the identity of the employee to ensure the individual's privacy); and
- Ensure that the employee's work area is thoroughly cleaned.

Confirmed Cases

An employee will be considered a Confirmed Case of COVID-19 if the employee has been performing in-person operations in the past 14 days and that person tested positive for COVID-19.

If an employee believes that he or she qualifies as a Confirmed Case (as described above), he or she must:

- Immediately notify supervisor and/or Human Resources contact of his or her diagnosis; and
- Remain out of the workplace until they are cleared to return to work.

If an employee qualifies as a Confirmed Case, then Chippewa County will:

- Notify all employees who may have come into close contact with the employee (being within approximately six feet for a prolonged period of time without PPE) in the past 14 days (while not disclosing the identity of the employee to ensure the individual's privacy);
- Ensure that the entire workplace, or affected parts thereof (depending on employee's presence in the workplace), is thoroughly cleaned and disinfected;
- If necessary, close the work area or workplace, until all necessary cleaning and disinfecting is completed; and
- Communicate with employees about the presence of a confirmed case, the cleaning/disinfecting plans, and when the workplace will reopen.

Business Continuity Plans

The COVID-19 Workplace Coordinator will: (1) work with management to cross-train employees to perform essential functions so the workplace can operate even if key employees are absent; (2) identify alternate supply chains for critical goods and services in the event of disruption; and (3) develop an emergency communication plan to communicate important messages to employees and constituents.

APPENDIX A

CRITICAL INFRASTRUCTURE WORKERS

Consistent with the March 19, 2020 CISA guidance document, critical infrastructure workers include some workers in each of the following sectors

- a. Health care and public health.
- b. Law enforcement, public safety, and first responders.
- c. Food and agriculture.
- d. Energy.
- e. Water and wastewater.
- f. Transportation and logistics.
- g. Public works.
- h. Communications and information technology, including news media.
- i. Other community-based government operations and essential functions.
- j. Critical manufacturing.
- k. Hazardous materials.
- l. Financial services.
- m. Chemical supply chains and safety.
- n. Defense industrial base.

For purposes of Executive Order 2020-42 and Executive Order 2020-59, critical infrastructure workers also include⁴:

- a. Child care workers (including workers at disaster relief child care centers), but only to the extent necessary to serve the children or dependents of workers required to perform in-person work as permitted under this order. This category includes individuals (whether licensed or not) who have arranged to care for the children or dependents of such workers.

⁴ Under Executive Orders 2020-42 and 2020-59, necessary government activities may continue, which includes activities performed by critical infrastructure workers as well as the following government activities including, but not limited to, public transit, trash pick-up and disposal (including recycling and composting), activities necessary to manage and oversee elections, operations necessary to enable transactions that support the work of a business's or operation's critical infrastructure workers, and the maintenance of safe and sanitary public parks so as to allow for outdoor activity permitted under Executive Order 2020-42. In-person government activities are subject to the same social distancing and mitigation measures proscribed under the executive order for businesses.

- b. Workers at suppliers, distribution centers, or service providers, as described below.
 - 1. Any suppliers, distribution centers, or service providers whose continued operation is necessary to enable, support, or facilitate another business's or operation's critical infrastructure work may designate their workers as critical infrastructure workers, provided that only those workers whose in-person presence is necessary to enable, support, or facilitate such work may be so designated.
 - 2. Any suppliers, distribution centers, or service providers whose continued operation is necessary to enable, support, or facilitate the necessary work of suppliers, distribution centers, or service providers described in subprovision (1) of this subsection may designate their workers as critical infrastructure workers, provided that only those workers whose in-person presence is necessary to enable, support, or facilitate such work may be so designated.
 - 3. Consistent with the scope of work permitted under subprovision (2) of this subsection, any suppliers, distribution centers, or service providers further down the supply chain whose continued operation is necessary to enable, support, or facilitate the necessary work of other suppliers, distribution centers, or service providers may likewise designate their workers as critical infrastructure workers, provided that only those workers whose in-person presence is necessary to enable, support, or facilitate such work may be so designated.
 - 4. Suppliers, distribution centers, and service providers that abuse their designation authority under this subsection shall be subject to sanctions to the fullest extent of the law.
- c. Workers in the insurance industry, but only to the extent that their work cannot be done by telephone or remotely.
- d. Workers and volunteers for businesses or operations (including both religious and secular nonprofit organizations) that provide food, shelter, and other necessities of life for economically disadvantaged or otherwise needy individuals, individuals who need assistance as a result of this emergency, and people with disabilities.
- e. Workers who perform critical labor union functions, including those who administer health and welfare funds and those who monitor the well-being and safety of union members who are critical infrastructure workers, provided that any administration or monitoring should be done by telephone or remotely where possible.
- f. Workers at retail stores who sell groceries, medical supplies, and products necessary to maintain the safety, sanitation, and basic operation of residences, including convenience stores, pet supply stores, auto supplies and repair stores, hardware and home maintenance stores, and home appliance retailers.
- g. Workers at laundromats, coin laundries, and dry cleaners.
- h. Workers at hotels and motels, provided that the hotels or motels do not offer additional in-house amenities such as gyms, pools, spas, dining, entertainment facilities, meeting rooms, or like facilities.
- i. Workers at motor vehicle dealerships who are necessary to facilitate remote and electronic sales or leases, or to deliver motor vehicles to customers, provided that showrooms remain closed to in-person traffic.

APPENDIX B

SAMPLE EMPLOYEE ENTRY SCREENING QUESTIONNAIRE

In order to access the workplace, I affirm that in the past 24 hours, I have not experienced:

_____ An atypical cough

_____ Atypical shortness of breath

Or at least two of the following:

_____ Fever of 100 degrees F or 37.8 degrees C, or above

_____ Chills/Repeated Shaking

_____ Muscle Pain

_____ Sore Throat

_____ Headache

_____ New or Loss of Taste or Smell

If you answer “yes” to any of the symptoms listed above, you will not be permitted access to the premises. Please self-isolate at home and contact your primary care physician for direction.

- You should isolate at home for a minimum of 7 days since symptoms first appear.
- You must also have 3 days without fever and improvement in respiratory symptoms.

In the past 14 days have you:

_____ Had close contact (within six (6) feet for a prolonged period of time) with someone with a diagnosis of COVID-19?

_____ Traveled internationally or domestically?

If you answer “yes” to either of these questions, you are not permitted access to the premises. Self-quarantine at home for 14 days.

If no to all of the above, please check and sign below and proceed to enter the workplace premises:

_____ I will wear a face covering while in any public spaces within the premises.

[Include if you wish to have employees attest to their answers]

Signature: _____ Date: _____

APPENDIX C

EMPLOYEE RETURN TO WORK PLAN

Consistent with Executive Order 2020-36, employees who fail entrance screening will only be permitted to return to work under the following circumstances.

Employees who test positive for COVID-19 or display one or more of the principal symptoms of COVID-19 (fever, atypical cough, or atypical shortness of breath) will not be permitted to return to work until either:

1. Both 3 days have passed since their symptoms have resolved *and* 7 days have passed since their symptoms first appeared or since they were swabbed for the test that yielded the positive result; or
2. They receive a negative COVID-19 test.

Employees* who have been in “close contact” (being within approximately six feet for a prolonged period of time) with an individual who tests positive for COVID-19 or who displays one or more of the principal symptoms of COVID-19 will not be permitted to return to work until either:

1. 14 days have passed since the last close contact with the sick or symptomatic individual; or
2. The symptomatic individual receives a negative COVID-19 test.

*The “close contact” rule does not apply to the following classes of workers: health care professionals; workers at a health care facility (including hospitals, surgical centers, health maintenance organizations, nursing homes, hospice, and veteran’s facilities); first responders (*e.g.*, police officers, fire fighters, paramedics); child protective service employees; workers at child caring institutions, as defined in MCL 722.111; and workers at correctional facilities.

APPENDIX D

**SAMPLE VISITOR
COVID-19 SCREENING FORM**

Court/Office Visiting: _____

Visitors Name: _____ Appointment Date: _____ Time In: _____

In the past 24 hours, have you experienced any of the following symptoms:

_____ An atypical cough

_____ Atypical shortness of breath

Or at least two of the following:

_____ Fever of 100 degrees F or 37.8 degrees C, or above

_____ Chills/Repeated Shaking

_____ Muscle Pain

_____ Sore Throat

_____ Headache

_____ New or Loss of Taste or Smell

If visitor answered “yes” to any of the symptoms listed above, visitor is not permitted access to the premises.
Visitor handed CDC Handout: Sick with COVID-19 Fact Sheet.

In the past 14 days have you:

_____ Had close contact (within six (6) feet for a prolonged period of time) with someone with a diagnosis of COVID-19?

_____ Traveled internationally or domestically?

If visitor answered “yes” to either of these questions, visitor is not permitted access to the premises.

_____ Visitor is required to wear a face covering while in any public spaces within the premises.

Security Officer or Employee:

Contacted Court/Office and informed them the visitor was not allowed into the building.

Date: _____ Time: _____ Spoke to: _____

APPENDIX E

SIGNS FOR BUILDINGS

Spectrum Health employer resources provided these signs: one that can be posted at building entrances and one illustrating COVID-19 symptoms and prevention measures, which can be posted inside work places.

<https://www.spectrumhealth.org/covid19/employer-resources>

Only Enter This Building If You:

- **Are a healthy visitor**
- **Have an appointment**
- **Are a company employee**

All others:

If you have COVID-19 symptoms, please contact a health care provider.

If you have severe or life-threatening symptoms, please call 911 and proceed to the nearest emergency department.

Keeping Michigan Informed

Novel Coronavirus 2019 (COVID-19)

Symptoms

FEVER

COUGH

BREATHING DIFFICULTY

Prevention—Start With Washing Your Hands

WET HANDS

LATHER

SCRUB: 20 SECONDS

RINSE

DRY HANDS

- Washing your hands often with soap and water for 20 seconds is one of the easiest and most effective ways to prevent the spread of germs.
- Avoid contact with people who are sick.
- Cover your cough and sneeze with tissue.
- Avoid touching eyes, nose and mouth.
- Clean and disinfect surfaces and objects frequently.
- Stay home when you are sick, except to get medical care.

Seeking Care

Call your doctor if you experience symptoms, or our COVID-19 hotline at **616.391.2380** to schedule a free virtual screening.*
If your symptoms are life-threatening, call 911.

**Free screening available for all individuals in the state of Michigan.*

**Chippewa County
COVID-19 PREPAREDNESS AND RESPONSE PLAN**

Certification by Responsible Public Official

This is to certify that I have reviewed the Chippewa County COVID-19 Preparedness and Response Plan attached hereto and to the best of my knowledge and belief:

1. It complies with Michigan Executive Order #2020-42 dated Thursday, April 9, 2020 and Michigan Executive Order 2020-59 dated April 24, 2020.
2. The plan is consistent with the guidance from U. S. Department of Labor, Occupational Health and Safety Administration publication OSHA 3990-03-2020, Guidance on Preparing Workplaces for COVID -19.
3. The plan is available on the Chippewa County website www.chippewacountymi.gov and at each Chippewa County facility where in-person operations take place during the COVID-19 emergency.

I declare that the foregoing is true and correct.
