STANDING COMMITTEE REPORTS

BUILDING, GROUNDS AND JAIL, LEGISLATIVE AND NATURAL RESOURCES AND
INFORMATION TECHNOLOGY COMMITTEE
Commissioner Johnson
July 23, 2015

Agenda Items

Window Replacement

Mr. Markstrom gave an update on what he had learned about replacing the 16 round windows. The original plan may not work, as the frame and sash cannot be manufactured due to the sill plate; but there may be another solution which involves a cost savings. This would include weather stripping the windows, adding latches and checking the condition of the outside dormers.

It was moved by Commissioner McLean, seconded by Commissioner Martin, to approve the bell tower portion of the window replacement project at the price of \$58,442.00 and to have two prototype windows completed at \$1,000 per window, which will weatherize and latch the windows. On a voice vote, the motion carried. Commissioner McLean noted that Commissioner Egan voted "No" at the Building, Grounds and Jail, Legislative and Natural Resources and Information Technology Committee meeting.

It was moved by Commissioner McLean, seconded by Commissioner Martin, to have Mr. Markstrom

work with the administration to inspect the dormers of the round windows with a lift and pay for the lift, labor and grounds restoration to get a better idea of what is needed on the outside of the windows. A discussion followed, with Commissioner McLean stating that this has been a long, complicated process.

On a voice vote, the motion carried.

Tunnel

After a more detailed walkthrough with the contractor from Foundation Systems of Michigan, the administration advised the project be done in steps. The first step would be to try and stop the leak on the tunnel steps, by digging up and sealing the South outside steps, and see if that is successful. Then over the winter see how that holds up. The price for FSM would be cut by roughly seven thousand dollars, due to the lack of need of a sump pump and water resistant siding that would not need to cover the whole tunnel. This savings would be used for the front Courthouse steps and possible radon equipment.

It was moved by Commissioner McLean, seconded by Commissioner Martin, to have the administration move ahead with the Courthouse steps, as the first part of fixing the tunnel and then to reevaluate it. On a voice vote the motion carried.

It was moved by Commissioner McLean, seconded by Commissioner Martin, to accept the Building Grounds and Jail, Legislative and Natural Resources and Information Technology Committee meeting minutes of July 23, 2015 as presented.

Commissioner McLean announced that there is a meeting tomorrow at 1:30 p.m. at Regional Planning, relative to GIS parcel mapping. On a voice vote, the motion carried.

COMMISSIONERS REPORT ON MEETINGS AS BOARD REPRESENTATIVE AND GENERAL COMMENTS

- Commissioner McLean provided information regarding a meeting that he attended in Chippewa Township concerning federal grant information regarding County EMS. He indicated that they had a representative from the forest service there and that it's going to be a real struggle for him to be able to do anything concerning the situation with EMS in the outer lying areas. He noted that approximately 90% of Chippewa Township is Federal Forest and they pay PILT which amounts to \$300,000 which mainly goes to schools. He indicated, when looking at the function and meeting all the guidelines to the State it's going to cost approximately \$500,000 a year to do. This is a real dilemma to have an Ambulance arrive in a reasonable amount of time.
- Commissioner Martin provided an update on the Dark Store Proposed Legislation. He also noted that Senator Wayne Schmidt is in town and will be at the Cup of the Day from 3:30 to 4:30 today.

Having completed the agenda items, it was moved by Commissioner McLean, seconded by Commissioner Martin, that the Board adjourn. On a voice vote, the motion carried and the Board adjourned at 2:29 p.m.

Respectfully submitted,

Catherine C. Maleport, Clerk

Scott Shackleton, Chairman
